## Professional Experience

### Nokia - CNS

Sep 2022 – May 2023

Test Automation Development Co-op

Dallas, TX

- Automated test suites with Python scripts, reducing manual testing time by 50%.
- Utilized Jenkins, GIT, and JIRA to identify, troubleshoot, and fix system flaws, thus enhancing software quality and speeding up delivery time and collaborated with developers and testers to integrate testing into Agile development.
- Resolved technical issues with cross-functional teams to deliver high-quality software on time while documenting the action taken.
- Demonstrated an understanding of business value and implications while collaborating with team members from different backgrounds.

### George Mason University

Aug 2022 – Dec 2022

Graduate Teaching Assistant

Fairfax, VA

- Assisted with the course Ethics and Law for Computer Professionals (CS-306) as a teaching assistant. Responsibilities included creating lab assignments, grading assignments, and providing clarification to students.
- Monitored and analyzed cutting-edge industry trends, system analysis, and design developments, providing students with timely and relevant insights.
- Engaged with students to ensure understanding of course material and value of concepts.

### Let It Wag (Tool for NGO)

Jun 2019 – May 2020

Full-stack Developer

Mumbai, India

- Designed a real-time application/platform which brings all stakeholders involved in animal welfare under one roof and connects them all on a single platform in REALTIME. "Let it Wag" has saved 4000+ animals with 13K+ happy users. Ensured that software development was progressing on applications, applying agile methodology principles to keep projects on track. [Website: Let It Wag](#)
- In addition, we built a mobile application using extensive analysis and prediction techniques with the help of different algorithms to predict diseases based on the symptoms shown by the user. [Mobile App: Download](#)
- Collaborated with team members for UI/UX design and API integration while managing and troubleshooting technical issues. Created and maintained repositories, including implementing, and enforcing Git workflow and branching strategies. Also, documented the development process for future reference.

## Project Experience

### Cloud Computing

May 2022 – Dec 2022

- **Amazon Web Services** | *Java, Spring Framework, AWS EC2, AWS S3, AWS RDS MySQL, Docker, Kubernetes, Angular, CSS3, Jenkins, Typescript*
- Programmed an application using Angular, RESTful Web Services, JPA/Hibernate, and Amazon Relational Database Service (Amazon RDS)/MySQL to persist and read data to/from a relational database.
- Containerized the application using Docker Technology and deployed it on the container orchestration platform Kubernetes, utilizing the Spring Framework and conducted data manipulation while collaborating with team members for API integration, environment setup, and production support.
- **Google Cloud Platform** | *ASP.NET Core MVC, Entity Framework, GitHub, Kubernetes, Jenkins, Rancher, GCP*
- Developed a containerized web application using the open-source container orchestration platform Kubernetes to enable scalability and resiliency. Created a Kubernetes cluster on Google's cloud platform with GKE.
- Created a CI/CD pipeline using Git as a source code repository on GitHub and Jenkins as the deployment tool for Kubernetes, while engaging with team members for troubleshooting and production support.

### Telecom Churn Case Study | *Python, Data Mining, Machine Learning, Regression*

Feb 2022 – Apr 2022

- Predicted future telecom churn using existing data. Preprocessed and analyzed the data, created new features, and addressed class imbalance with the Synthetic Minority Oversampling Technique. Implemented Decision Tree classifier and logistic regression, optimized parameters, and achieved testing accuracies of 91.77% and 75.18%, respectively.

## Technical Skills

**Languages:** Python, Java, JavaScript, C, C++, HTML5, CSS

**Databases:** SQL, NoSQL

**Tools:** Cloud Platforms (AWS, Google Cloud), Git, MySQL, Jenkins, Spring-Boot, Kubernetes, Docker, JIRA, OpenStack

**Certifications:** AWS Solution Architect Associate Certified, WordPress, Tableau/Power BI

**Frameworks:** React JS, Node JS, Django, Angular, jQuery, Bootstrap, CodeIgniter, Ajax, Agile/Scrum

## Education

### George Mason University

Aug 2021 – May 2023

Master's of Science (MS) in Computer Science (GPA: 3.5)

Fairfax, VA

### University of Mumbai

Aug 2016 – Nov 2020

Bachelor's of Engineering (BE) in Computer Engineering (GPA: 3.2)

Mumbai, India
